AMERICAN LEAGUE ADJOURNS. President Johnson Says the Circuit Will Surely Include Chicago.

CHICAGO, March 17.-The American Baseball League magnates adjourned at 7 o'clock tonight subject to the call of President Johnson. Those in attendance refused to go into details regarding what had been accomplished during the two days' conference, beyond the fact that the League would have teams at Buffalo, Cleveland, Detroit, Indianap-olis and Kansas City. It is learned, however, that all the friction between the American and National men regarding the putting of an American team here has not been removed. Numerous conferences were held with President Hart of the local League team. He was insistent upon making the admission of an American team to Chicago conditional upon the taking by the American League of the baseball park at Cleveland off the hands of the National League. This, it is said, has been tentatively agreed to, but is subject to further negotiations. On this point President Johnson said:

"We have made a plain business proposition to the National League regarding Cleveland Park. If the National sees fit to accept it matters can be quickly adjusted. The American League does not wish to clash with the National League and from present indications will not, but you can say that our circuit will include Chicago, e-me what may. I expect to come to some understanding about the Ceveland matter by next Tuesday. Then I will issue a call for another meeting of the League, At the next meeting we will pass on the schedule and perfect our plans for the coming senson." tions. On this point President Johnson said:
